

# Shell Car Interior Sanitizer

## Automotive Sanitizer & Deodorizer for Interiors

Shell Car Interior Sanitizer is an easy to use aerosol designed to deodorize, disinfect and sanitize vehicle interiors. Kills 99.9% of germs.

### Applications

Shell Car Interior Sanitizer is an easy to use aerosol designed to deodorize, disinfect and sanitize vehicle air conditioning systems providing a fresh fragrance to vehicle interiors.

### Performance Features and Benefits

- Easy to use one shot aerosol.
- Deodorizes and eliminates bad smells from air conditioning systems.
- Pleasant fresh citrus fragrance.
- Imparts effect to entire interior.
- Disinfects and sanitizes interior vehicle surfaces and vehicle air conditioning systems. Kills 99.9% of germs.

### Product Use

- The vehicle engine must be turned on, then turn on air conditioning system to max power and fan speed and run for 2 full minutes in recirculation mode.
- Slide the passenger seat fully back and place aerosol so that the discharging aerosol dispenser will not deposit directly onto any surfaces.
- Shake can well and depress one shot valve.
- Please note that once activated the aerosol cannot be shut off and must be left to complete the discharge.
- Immediately place the can in the passenger foot well, and shut vehicle door making sure no children or pets are inside.
- Once it can be seen that the aerosol has emptied, allow the air conditioner to run for another 10 minutes.
- Turn off engine, open drivers and passenger doors and ventilate vehicle for 6 minutes before driving.

### Specifications and Approvals

Suitable for use in all vehicles.

Microbial Examination: Conforms to United States Pharmacopoeia (USP), 42<sup>th</sup> edition, 2019, chapter 61 and 62 - (Kills 99.9% of germs).
