# Shell Wax Paste

**Shell Wax Paste is a premium Crystal Wax formulation designed to provide superior protection to automotive paintwork with a mirror-like glossy finish.**

---

## Application

The product is used as protectant for automotive paint and to give it a mirror-like glossy shine

## Directions of Use

Wash and dry vehicle thoroughly before use  
Gently dab the supplied applicator into the pot whilst turning.

Apply to clean and dry paintwork in a circular motion, making sure to leave behind an even and thin layer.

Allow wax to dry for approximately 5-10 minutes, then buff to a high gloss finish using a clean microfiber cloth.

Do not wax the vehicle under direct sunlight

## Performance Features and Benefits

- **Excellent Protection**

Helps protect paintwork from scuffing, oxidation, acid rain and other contaminants.

- Provides a mirror-like glossy finish with excellent depth, clarity and detail whilst repelling water.

- **Long Lasting**

A single application can last as long as 3 months

## Specifications and Approvals

The product is suitable for use on all standard automotive paintwork

## Health & Safety

Guidance on Health and Safety is available on the appropriate Material Safety Data Sheet, which can be obtained from your Recochem representative.

## Protect the Environment

In the event of disposal, take any unused product to an authorised collection point. Do not discharge into drains, soil or water.

## Shelf Life

When stored correctly, away from moisture, direct sunlight and excessive heat, this product should be suitable for use for up to five years after the date of manufacture.

### Typical Physical and Chemical Characteristics

Wax Paste	Units	Typical
Appearance		Wax Paste
Colour		Yellow

These characteristics are typical of current production. Whilst future production will conform to Recochem's specification, variations in these characteristics may occur.
