Shell Tyre Shine

Shell Tyre Shine is a high quality silicon rich formula that not only makes your cars tyres look new and fresh

Applications

Shell Tyre Shine is a high quality silicon rich formula that not only makes your cars tyres look new and fresh, but also helps to repel dirt and grime, keeping that new tyre look for longer.

Performance Features and Benefits

- Makes old tyres look newer
- Suitable for use on exterior rubber mouldings such as window surrounds, giving them a fresh look. Also suitable for use on hard plastics.
- Helps keep dirt and grime off of tyres.
- Quick and easy to apply.

Product Use

Shake can before use. With can approximately 20 cm from car tyre, spray Shell Tyre Shine liberally around the tyre and allow to air dry. For a superior shine and added protection, proceed to add another coat to your tyres.

Health & Safety

Guidance on Health and Safety is available on the appropriate Safety Data Sheet, which can be obtained from your Shell representative.

Avoid exposure to the skin, wash any affected areas thoroughly with water.

Protect the Environment

Dispose used aerosol cans thoughtfully. Take product to an authorised collection point.

Shelf Life

When stored undercover, away from moisture and direct sunlight, this product should be suitable for use for up to three years after the date of manufacture.

Typical Physical and Chemical Characteristics

Tyre Shine	Units	Typical
Appearance		Clear liquid
Odour		mild
Flash Point	Deg C	-104 Deg C (propane)

These characteristics are typical of current production. Whilst future production will conform to Recochem's specification, variations in these characteristics may occur.
