Shell Wheel & Alloy Cleaner

Spray on “ready-to-use” cleaner for all alloy wheel hubs and caps

Shell Wheel & Alloy Cleaner is a premium formulation wheel hub cleaner that quickly and easily removes all road grime, tar and brake dust buildup from wheel hubs and caps.

Applications

The product is suitable for use on all standard automotive wheel hub systems.

The product can be sprayed onto the dirt contaminated area, and then simply wait for ten minutes before washing off to a sparkling finish.

Performance Features and Benefits

- **Excellent cleaning performance**
Removes road grime, tar and brake dust buildup from wheel hubs and caps.
- **Phosphate free, environmentally friendly**
- **Biodegradable**
- **Simple and easy to use**

Specifications and Approvals

Suitable for use in all modern automobile applications

Health & Safety

Guidance on Health and Safety is available on the appropriate Safety Data Sheet, which can be obtained from your Recochem representative.

Protect the Environment

Take used products to an authorised collection point. Do not discharge into drains, soil or water.

Shelf Life

This product is to be stored undercover, in dry conditions at ambient temperature below 30°C, and away from direct sunlight and possible moisture ingress.

When stored under such conditions, with the cap and packaging remained sealed, then the shelf life of the product is 5 years. Once opened and unsealed, the product should be fully consumed as soon as possible.

Typical Physical and Chemical Characteristics

Wheel & Alloy Cleaner	Units	Typical
Appearance		Pink, Clear and Bright
Density	Kg/Litre	1.000
pH 1% Solution		7.00
Cloud Point	Deg C	50 min
Flash Point	Deg C	65 min

These characteristics are typical of current production. Whilst future production will conform to Recochem's specification, variations in these characteristics may occur.
